

Uncompromising hygiene with NETZSCH pump

WE PRESENT

NEMO® BH Hygienic Pump with heating jacket

This pump has open hygienic pin joints, open housing seals, mixing elements on a coupling rod and a heating jacket over the whole stator and pump housing area. All surface areas are polished version to avoid caking of the fluid and to improve clean ability.

This pump is suitable for all hygienic applications in foodstuff, pharmaceutical, cosmetic and biotechnology industries and especially for viscous media which have to be heated or cooled, because

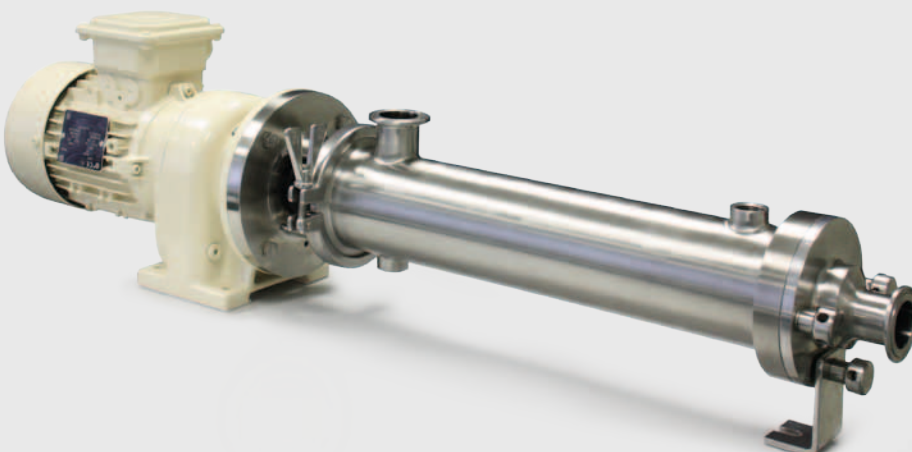

- the specially designed mechanical seals assure perfectly crevice-free pumping space
- the housing and stator are heated
- the products are conveyed smoothly
- the pump can be cleaned according to the correct process
- the pump is reliable in terms of process and operation.

Benefit

The pump can be taken apart quickly using quick-fit connections.

Pump versions

The pump is available in different rotor-/stator-geometries.

NETZSCH

by fax to: +49 8638 63-2333 or by e-mail: info.nps@netzsch.com

NETZSCH, in its capacity as world market leader in progressing cavity pumps and manufacturer of rotary lobe pumps, develops, manufactures and markets NEMO® hygienic and aseptic pumps and TORNADO® hygienic rotary lobe pumps in the Business Field Food & Pharmaceutical. These pumps guarantee hygienic, smooth conveyance of high-quality and sensitive media throughout all stages of the process.
